I am Scientist of the Week!

Answer these questions **BEFORE** you try your experiment at home:

| | Thinking of an Idea: Which experiment will you be conducting? |
|---|--|
| • | Research your topic: Where did you find this science experiment? |
| | Why did you choose this science experiment? |
| | What do you want to find out? (What is your <u>Question</u> ?) |
| | |
| | |

PRETEND THIS IS YOUR SCRIPT AND THINK ABOUT WHAT YOU WILL SAY TO YOUR AUDIENCE. MAKE IT INTERESTING!

| Plan your experiment: A. Materials: What materials will you need? | | |
|---|---|--|
| | | |
| | | |
| | | |
| | | |
| | edure: Explain ALL of the steps you will need to take to this experiment. | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| | | |

| Make a Prediction: What do you think will happen? | | |
|---|--|--|
| | | |
| | | |
| AFTER conducting your experiment at home, answer these questions: | | |
| Analyze your results: Was there a reaction? Explain what happened. Be prepared to explain why this happened. | | |
| | | |
| | | |
| | | |
| | | |
| | | |
| Conclusion: Was your prediction accurate? If not, how were your results different from your prediction? | | |
| | | |
| | | |
